

Page 1: 96 DPI Layout

This layout is designed at 96 DPI. The table below should span the entire page width.

Col 1	Col 2
Key 1	Value 1 - this is a description that should wrap correctly and be easy to read.

Page 2: 96 DPI Layout

This is the second page, which should also look wide and normal, without collapsing.

Col A	Col B
Key A	Value B - another description.
